**Kranjska Gora,
16. 3. 2020**

Dear guest and beloved friends,

we are closely and responsibly monitoring the current situation regarding coronavirus pandemic. Based on the measures taken by the government we have implemented numerous preventive measures for stopping the coronavirus spread.

Despite that and because we believe acting responsibly is crucial in this situation, we have decided to close all our hotels till further notice.

We are doing this before any of our guests or employees get infected. Our primary mission is healthcare and general wellbeing, that is why keeping us all safe is our main objective. We believe that together we can stop the spread of the virus.

We thank you for your understanding and in hope that the situation calms down soon, we are asking you to respect the health measures and take care of yourselves. Stay at home and try to keep your human touch despite physical distance.

We will keep you up to date on our social media and on our website.

Once situation is restored to normal, you are kindly welcomed to visit us again.
